

NORPAC ORCA ENGINEERING LASER BOND

BRIGHT, BOLD WIDE-FORMAT PRINTING

Orca® Engineering Laser Bond is an excellent choice for wide-format printing on inkjet and laser printers, providing bold reproduction on a bright, smooth surface suitable for banners and architectural applications.

Superior Readability

- 20 lb. bond basis weight
- 92 brightness for excellent contrast
- Smooth finish for fine detail clarity

Versatile

- Ideal for banners and architectural applications
- For use with inkjet and laser web presses
- Suitable for Océ, KIP, HP and other wide format printers

Sustainable Manufacturing

- Made in the U.S.A. by NORPAC in Longview, WA
- All major fiber certifications available
- Acid-free for archival permanence and extended document life
- Elemental chlorine free (ECF)
